Alexander Bondarenko

React Frontend Developer
Киев, Киев, Украина

Общие сведения

Hi, my name is Alexander. I am from Mariupol.
A few years ago I was closely engaged in front end, but due to life circumstances there was a forced pause. Now, being in Kyiv, I again got down to web and progressively remember all the lost knowledge and acquire new ones.
At the moment I quit my unloved job and devote all my free time to studying in practice.
Now in training I focus on JS, React development and understanding Node.

+ HTML5
+ CSS 3 , Sass
+ JS , jQuery
+ npm
+ Git
+ Gulp (my gulp solution https://github.com/shadelete/eptagulp)
+ WordPress CMS

Base knowleng:
React(current learning)
NodeJS(current learning)

Опыт работы

Rede Media
